

Output 2 Chapter 2.2

NAME: Sagayoc, Armando B Jr.

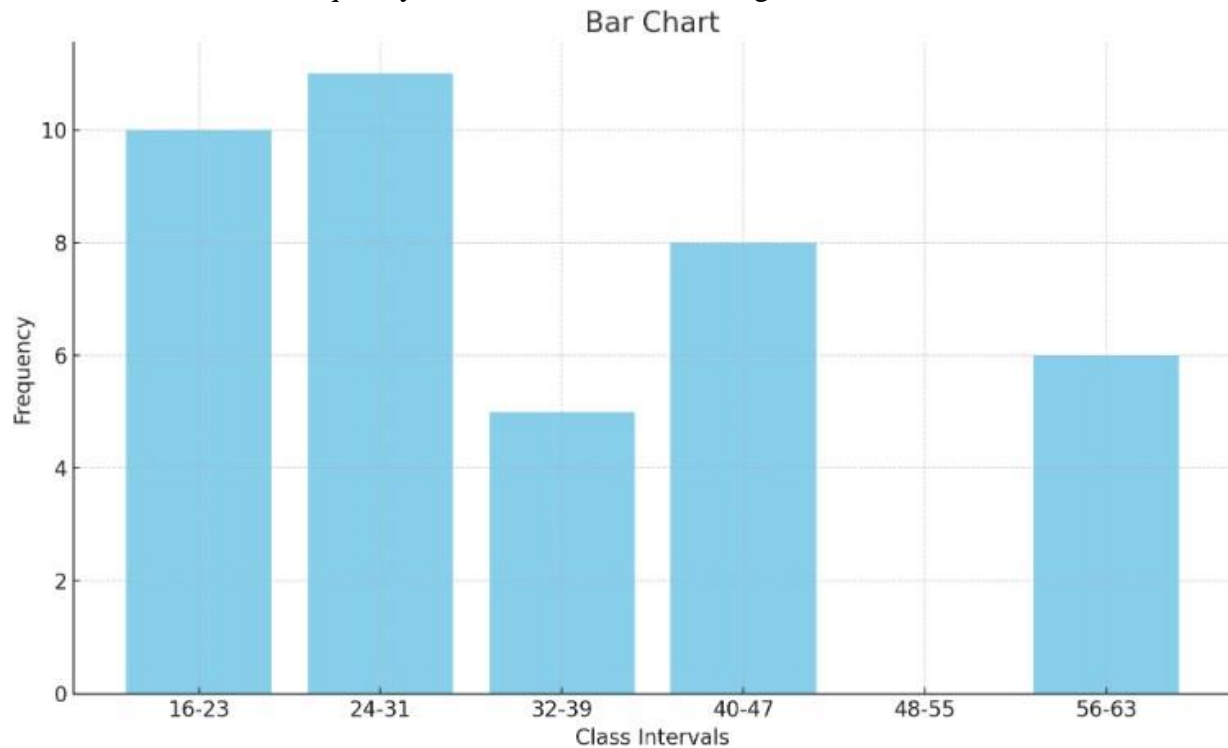

CLASS SCHEDULE: MTh 1:30-3:00pm DATE: April 15, 2025

ORGANIZING OF DATA

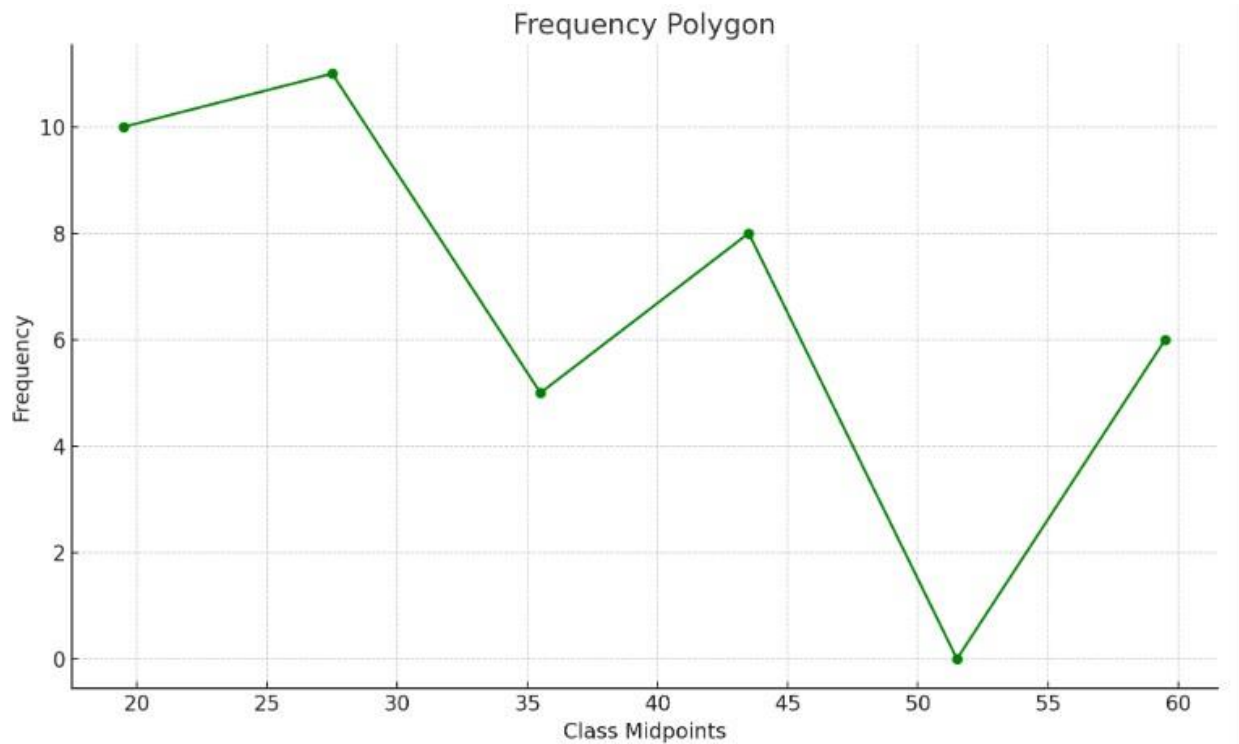

Refer to the frequency distribution table you set up in the previous activity (Exercise 2.1), construct bar chart, frequency polygon and frequency ogive.

Classes	Frequency (f)
56-63	6
48-55	0
40-47	8
32-39	5
24-31	11
16-23	10

Bar Chart - shows the frequency of each class interval using bars.

Frequency Polygon - plots the frequency against the midpoint of each class and connects them with lines.

Cumulative Frequency Ogive (Less Than) - plots the cumulative frequency against the upper boundary of each class.
